

## **Meet the My Mobile Witness Team**

### **Marcus Anthony – Co Founder**

A telecommunications expert, Marc Anthony co-founded My Mobile Witness with his lifelong friend Scott Bullens because they felt there was a unique opportunity to leverage cell phone technology as a personal safety tool.

Among Marc's many duties are to plan, develop and establish policies and objectives of the company, oversee all employee and customer service training, provide guidance so all programming, engineering and software/network development remains congruent with the mission and vision of the organization.

Among his more high profile projects while working in the Telecom industry, Marc launched a 12-month data trial in partnership with G.T.E., IBM and Roadway Package Systems (now Fed-Ex Ground). Successful completion of a beta trial led to the first nationwide wireless packet data application in the United States.

Marc was also integral to the first Personal Communication System (PCS) trial in the nation, partnering with Carnegie Mellon University as the research entity studying consumer behavior and IBM as the first enterprise customer to commercially test the product. Marc has worked with numerous fortune 500 companies offering guidance on both wireless and landline data applications.

Marc holds a B.S. in Cognitive Psychology from the University of Pittsburgh.

### **Scott Bullens - Co-Founder**

The Yin to Mr. Anthony's Yang, Scott Bullens co-founded My Mobile Witness with Marc, providing his expertise in the area of finance.

Among Scott's responsibilities are to develop and establish policies and objectives and maintain the vision of the company. Scott is also responsible for developing and implementing company financial policies and controls; raising capital; managing relationships with investors, budgeting and forecasting, and overseeing strategies for maximizing the company's value.

With a wealth of financial experience, Scott has been employed with organizations such as Smith Barney, Direct Trading and Knight Capital Group. He currently is a partner at Hedge Fund Services (HFS) a company that provides space, trading solutions and several other services to professional money managers.

Scott holds a B.B.S. in Finance from the University of Georgia and MBA from Georgia State University.

### **Randall Zortman**

As Chief Technology Officer Randy brings an extensive data background along with his experience as President & C.E.O of a venture financed by endowment funds from a prestigious university highly regarded in both business and technical disciplines, Randy brings the diverse skills needed to manage the My Mobile Witness network.

Randy's duties include overseeing programming, engineering of software, network development as well as maintaining the security, scalability and functionality of the company's network.

Randy holds an MBA from Duquesne University and a B.A. from Grove City College.

### **Jim Kern**

A software guru, Jim Kern oversees the development, security and integrity of the database used to house incoming photos and customer records.

His extensive experience in high profile, security-related organizations made Jim a natural for My Mobile Witness. While at IBM, Jim designed code used for processing incoming radar data from Air Traffic Control and also spent two years as a Senior Software Architect at the Naval Research Laboratory (NRL) where he led a team that developed web based document management systems for NRL research programs, including a program that removes, categorizes and stores satellite images.

Jim holds an M.S. in Computer Engineering and B.S. in Electrical Engineering from Penn State University.

### **Ron Knight**

Ronald E. Knight is the Chief Security Consultant for My Mobile Witness. Knight possesses extensive law enforcement and security experience at the management level with the Federal Bureau of Investigation (FBI) and the U.S. Army. His experience includes participation in such high profile crimes as the Oklahoma City bombing, Columbine school shootings in Colorado and the Texas 7 prison escapes.

He began his FBI career as a Special Agent, based in Portland, charged with the investigation of incidents of violent crime, white-collar crime and terrorism. In 1986, Knight joined the Hostage Rescue Team of the FBI, in Quantico, Virginia. There, Knight was responsible for planning and implementing security for special events and was also a Counterterrorist and hostage rescue specialist, with domestic and overseas operational experience.

From 1997 to retirement, Knight worked as a Supervisory Special Agent for the Bureau, responsible for the management and supervision of FBI offices throughout Colorado. In addition, he was a supervisor for regional Joint Terrorism Task Forces, a Squad Supervisor of a Violent Crime/Fugitive Task Force, an investigative supervisor at the 2002 Salt Lake City Winter Olympics and a Deputy On Scene Commander of the FBI mission in Afghanistan.

Ron holds a B.A. in History from the University of Arizona along with Post Graduate studies from the University of Maryland.
